

# Login/Auth Test Cases

Test case - Dashboard of Car Care Tracker when not signed in.

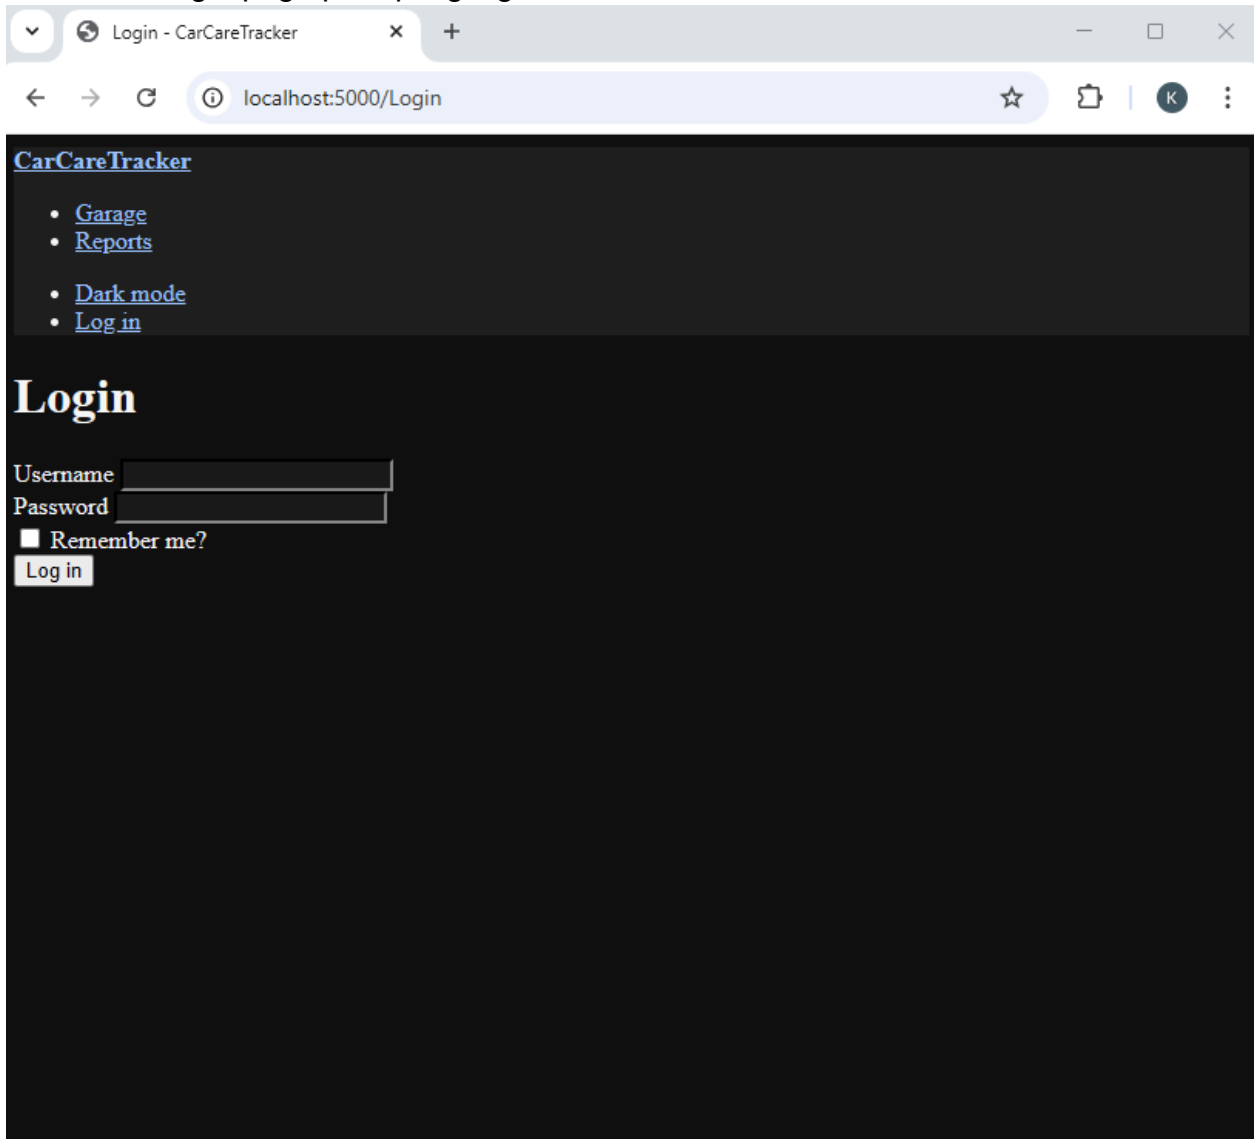

## Steps:

- 1) Open <http://localhost:5000> in a browser.

## Result: As expected

- Dashboard loads.
- Message: "You are not currently signed in. Only public information" is displayed.
- Vehicle/reminder counts show 0 by default.

Test case - login page prompting sign in.

## Login

Username

Password

☐ Remember me?

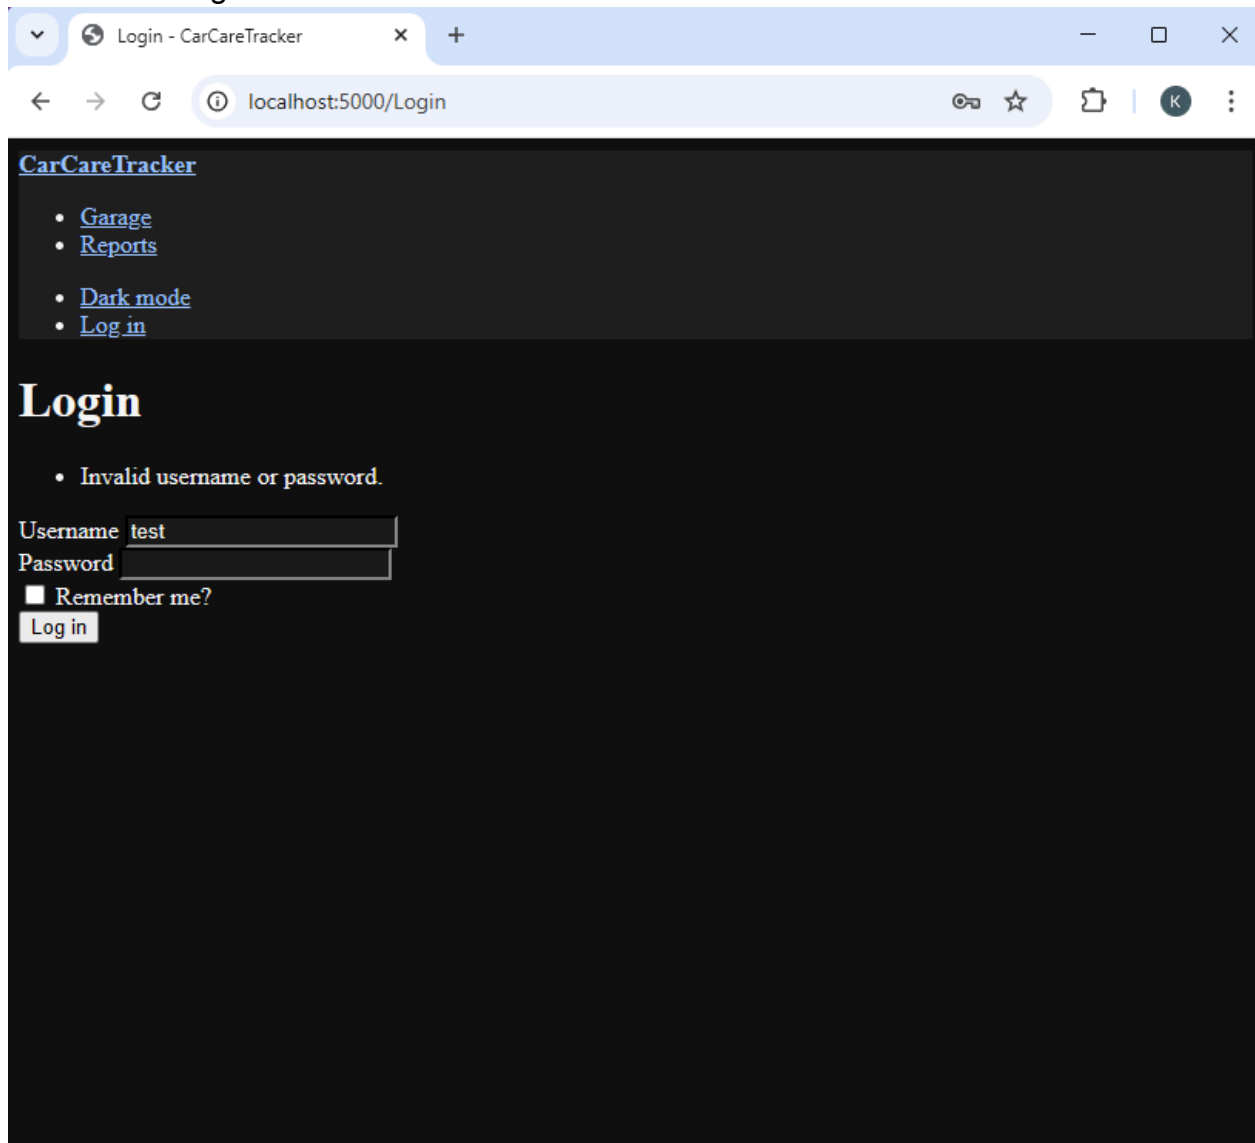

**Steps:**

- 1) From the dashboard, click Log in

**Result: As expected**

- A login form is displayed with username and password inputs and a Login button.

## Test Case - Login with incorrect credentials

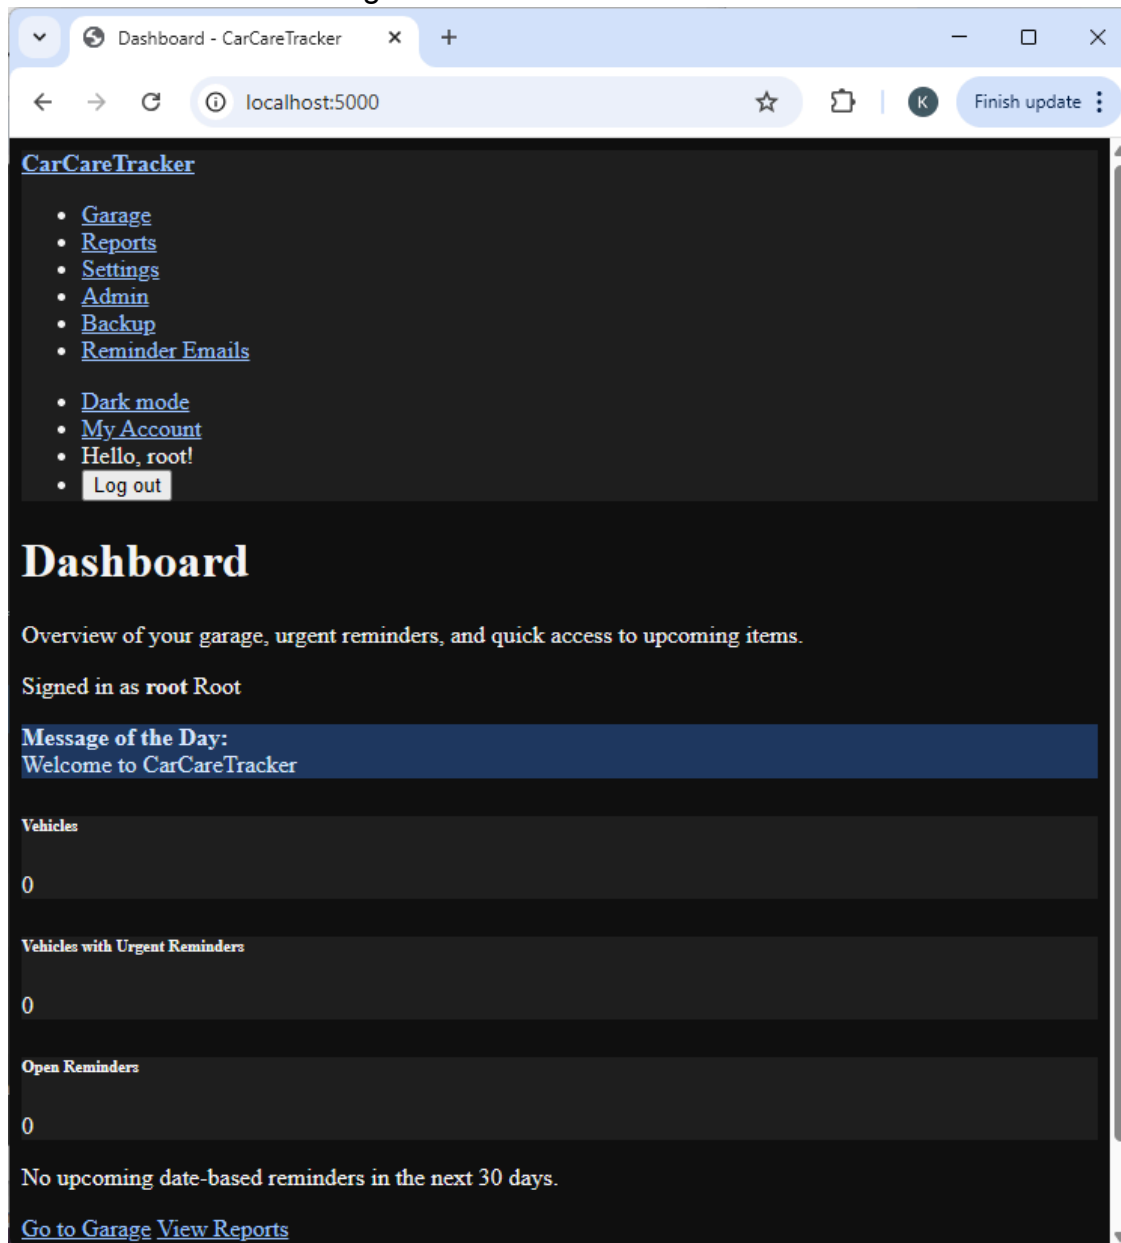

### Steps:

- 1) Input a username and password combination that has not been set up.

### Result: As expected

- Page will reload
- An "Invalid username or password." will appear.

## Test Case - Successful login

### Steps:

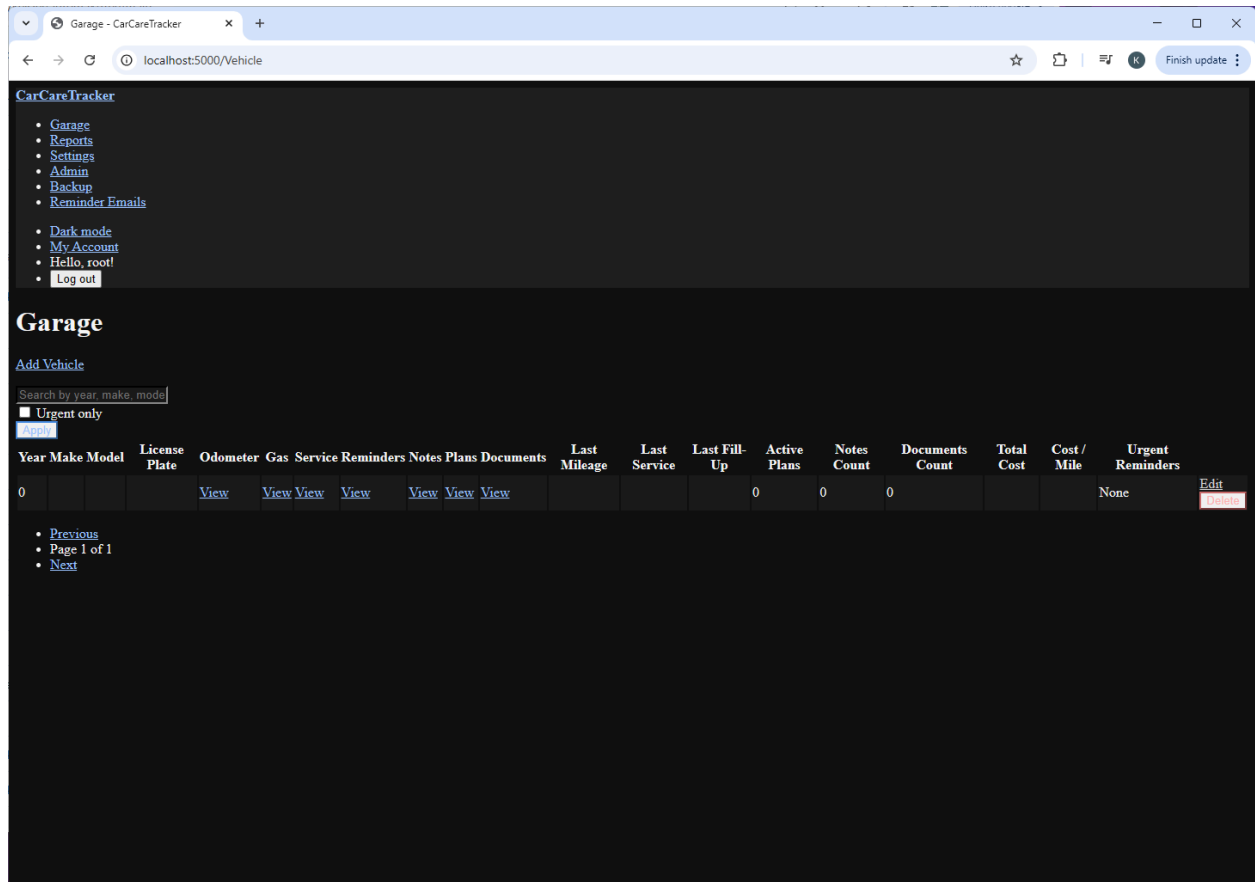

1. Open <http://localhost:5000>
2. Click Log in in the top navigation bar
3. Enter username root
4. Enter password password
5. Click the Log in button

### Results: As expected

- Login succeeds with no error message.
- User is redirected to the main dashboard.
- The "You are not currently signed in..." message disappears.
- Garage/Reports navigation items are available as a signed-in user.

# Garage/Vehicle test cases

## Test Case - Add a new vehicle

### Steps:

1. From the top navigation, click Garage.
2. Click the Add Vehicle button.
3. Enter valid vehicle details.
4. Click Save.

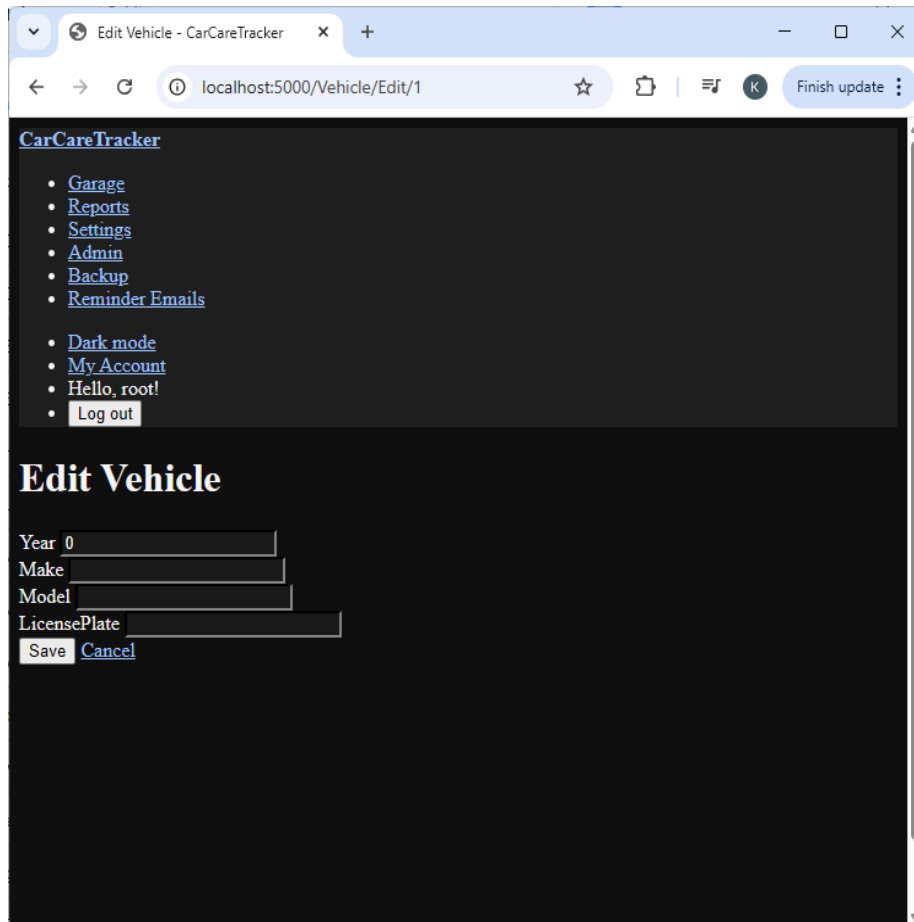

### Expected Result

- The new vehicle is created without error.
- The vehicle appears in the Garage/Vehicle list with the correct details entered.

### Actual Result:

After clicking Save on the Add Vehicle form (Year/Make/Model/Plate entered as "2015 / Honda / Civic /1B2 3C4"), the Garage page refreshed and showed one row, but the row only displayed 0 in the first column and no visible values under Year, Make, Model, or License Plate. Only the "View / Edit / Delete" links appeared. The new vehicle "2015 Honda Civic" did not appear with its details in the Garage list.

## Test Case - Edit Vehicle

### Steps:

1. From the top navigation, click Garage.
2. In the vehicles table, locate the existing row (the one that shows 0 and the “View / Edit / Delete” links).
3. Click the Edit link for that row.

### Expected Result

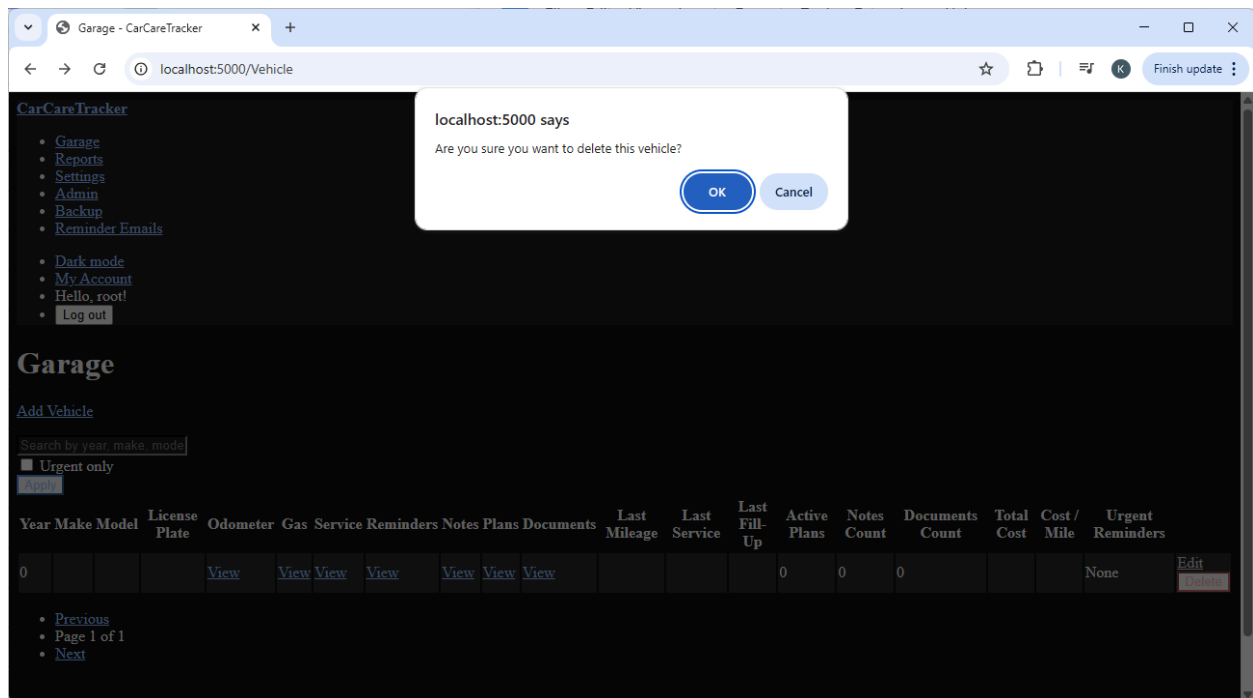

1. The Edit Vehicle page should load successfully.
2. The form should show the current vehicle data (Year, Make, Model, License Plate, etc.) so the user can modify the details.
3. After making changes and saving, the user should be redirected back to the Garage list with updated values.

### Actual Result:

When clicking Edit for the existing vehicle row, the browser navigates to `http://localhost:5000/Vehicle/Edit/1` and displays a generic error page:

“This page isn’t working – If the problem continues, contact the site owner. HTTP ERROR 400.”  
The Edit Vehicle form never appears, and it is not possible to edit any vehicle.

## Test Case - Delete Vehicle from list

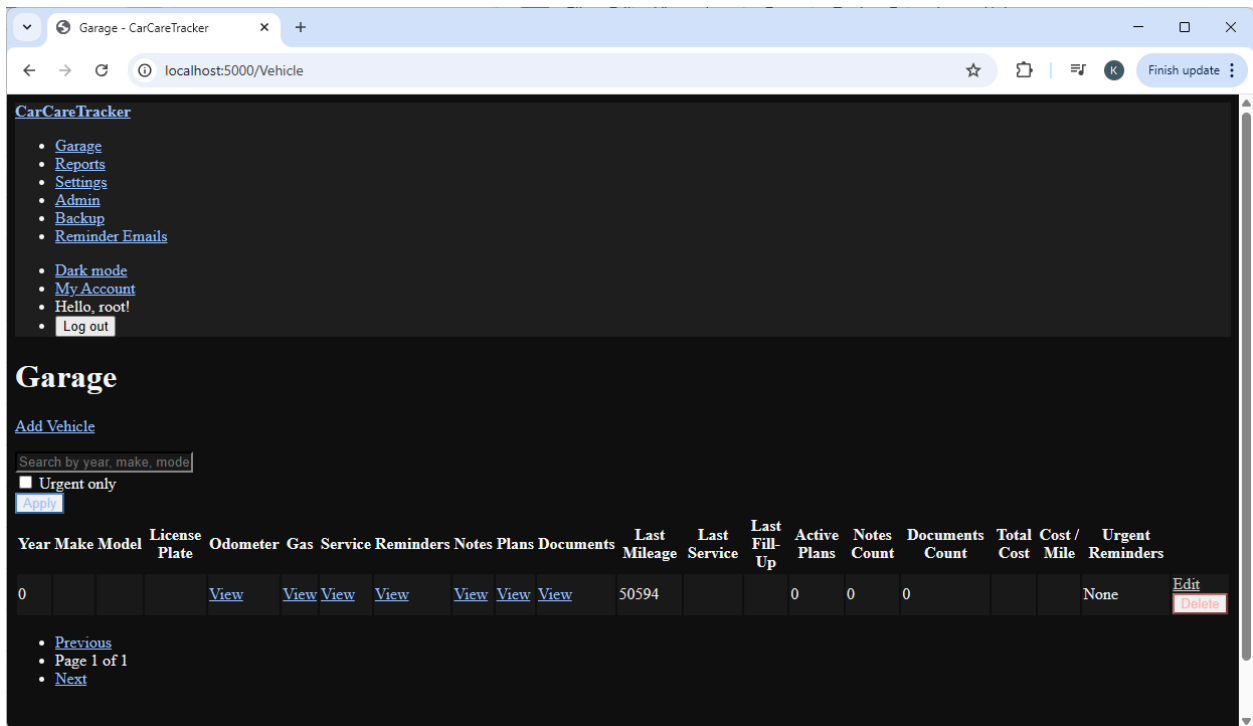

### Steps:

1. Go to Garage.
2. Select the test vehicle to remove.
3. Click Delete (and confirm when a confirmation dialog appears).

### Result: As expected

- Vehicle is removed without error.
- The deleted vehicle no longer appears in the Garage list.

## Test Case - Odometer

### Steps:

1. Open vehicle → Odometer tab.
2. Add a reading *higher* than previous.
3. Save.

### Result: As expected

- New reading appears with correct value/date.

## Test Case - Add Gas Entry

The screenshot shows a web browser window with the title 'Add Gas Entry - CarCareTracker'. The address bar shows 'localhost:5000/Gas/Create?vehicleId=1'. The page has a dark theme. At the top, there is a navigation menu with links: Garage, Reports, Settings, Admin, Backup, Reminder Emails, Dark mode, My Account, Hello, root!, and Log out. Below the menu, the main heading is 'Add Gas Entry'. Under this heading, there is a form for adding a gas entry. The form includes fields for 'Vehicle: 00', 'Fill-up Date' (11/28/2025), 'Odometer' (51000), 'Fuel Volume' (10), 'Price Per Unit' (1.92), and 'Total Cost' (19.20). There is also a checkbox for 'IsFullFillUp' and a 'Notes' field. At the bottom of the form, there are 'Save' and 'Cancel' buttons.

- [Log out](#)

## Add Gas Entry

Vehicle: 00

Fill-up Date 11/28/2025

Odometer 51000

Fuel Volume 10

Price Per Unit 1.92

Total Cost 19.20

☐ IsFullFillUp

Notes

[Save](#) [Cancel](#)

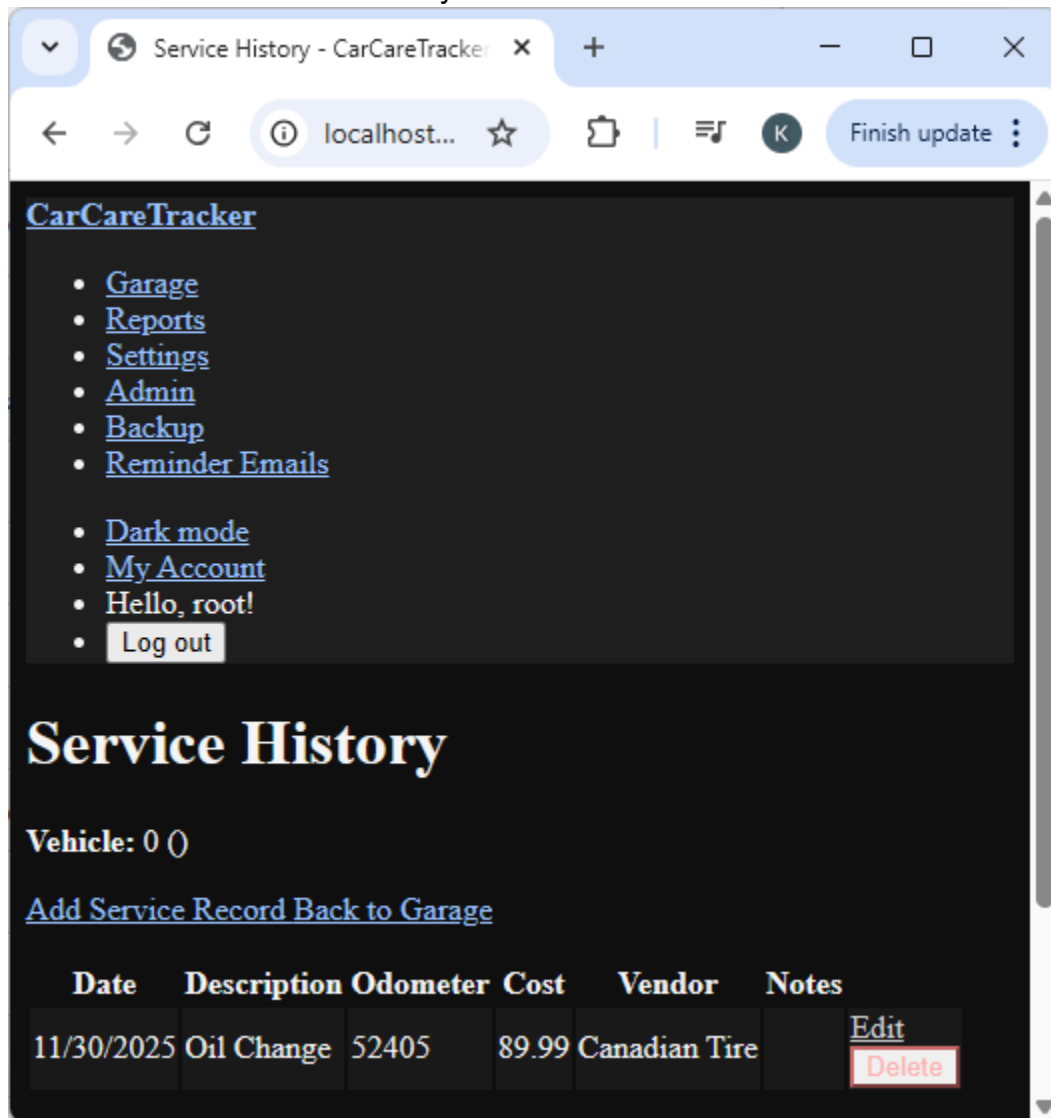

### Steps:

1. Open vehicle → Gas tab.
2. Add fill-up with date, litres, price, and odometer.

### Result: As Expected

- Gas entry appears in list and under the gas section.

## Test Case - Add Service History

### Steps:

1. Go to Service tab.
2. Add record with description, cost, date.

### Result: As Expected

- Record shows in service history with correct cost.

## Test Case - Full Vehicle Report

The screenshot shows a web browser window with the address bar displaying 'localhost:5000/Vehicle'. The page title is 'CarCareTracker'. A sidebar menu on the left contains links for 'Garage', 'Reports', 'Settings', 'Admin', 'Backup', 'Reminder Emails', 'Dark mode', 'My Account', 'Hello, root!', and 'Log out'. The main content area is titled 'Garage' and includes a link 'Add Vehicle' and a search bar 'Search by year, make, model'. Below the search bar is a checkbox for 'Urgent only' and an 'Apply' button. A table displays vehicle data with columns: Year, Make, Model, License Plate, Odometer, Gas, Service Reminders, Notes, Plans, Documents, Last Mileage, Last Service, Last Fill-Up, Active Plans, Notes Count, Documents Count, Total Cost, Cost / Mile, Urgent Reminders, and an 'Edit' button. The table contains one row with the following data: Year: 0, Make: , Model: , License Plate: , Odometer: View, Gas: View, Service Reminders: View, Notes: View, Plans: View, Documents: View, Last Mileage: 50594, Last Service: 11/30/2025, Last Fill-Up: 11/28/2025, Active Plans: 0, Notes Count: 0, Documents Count: 0, Total Cost: 109.19, Cost / Mile: , Urgent Reminders: None, and an 'Edit' button. Below the table are links for 'Previous', 'Page 1 of 1', and 'Next'.

### Steps:

1. Go to Reports.
2. Choose your vehicle and date range.
3. Generate report.

### Result: As Expected

- Report loads without error; totals roughly match what you entered.
